Breakdown of property's energy performance

Features in this property

Features get a rating from very good to very poor, based on how energy efficient they are. Ratings are not based on how well features work or their condition.

Assumed ratings are based on the property's age and type. They are used for features the assessor could not inspect.

| Main heating | Room heaters, electric | Very poor |
| Main heating control | Manual charge control | Poor |
| Main heating control | Programmer and appliance thermostats | Good |
| Hot water | Electric immersion, off-peak | Average |
| Lighting | Low energy lighting in all fixed outlets | Very good |
| Roof | (another dwelling above) | N/A |
| Floor | Solid, no insulation (assumed) | N/A |
