

# Energy Performance Certificate

Flat 3, 87 Sandgate Road, FOLKESTONE, CT20 2AF

<b>Dwelling type:</b>	Top-floor flat	<b>Reference number:</b>	8146-7322-4790-2215-7902
<b>Date of assessment:</b>	05 February 2016	<b>Type of assessment:</b>	RdSAP, existing dwelling
<b>Date of certificate:</b>	15 February 2016	<b>Total floor area:</b>	79 m <sup>2</sup>

## Use this document to:

- Compare current ratings of properties to see which properties are more energy efficient
- Find out how you can save energy and money by installing improvement measures

<b>Estimated energy costs of dwelling for 3 years:</b>	<b>£ 2,904</b>
<b>Over 3 years you could save</b>	<b>£ 1,305</b>

Estimated energy costs of this home			
	Current costs	Potential costs	Potential future savings
Lighting	£ 348 over 3 years	£ 195 over 3 years	
Heating	£ 1,647 over 3 years	£ 945 over 3 years	
Hot Water	£ 909 over 3 years	£ 459 over 3 years	
<b>Totals</b>	<b>£ 2,904</b>	<b>£ 1,599</b>	

These figures show how much the average household would spend in this property for heating, lighting and hot water. This excludes energy use for running appliances like TVs, computers and cookers, and any electricity generated by microgeneration.

## Energy Efficiency Rating

## Top actions you can take to save money and make your home more efficient

Recommended measures	Indicative cost	Typical savings over 3 years	Available with Green Deal
1 Low energy lighting for all fixed outlets	£40	£ 99	
2 High heat retention storage heaters and dual immersion cylinder	£1,600 - £2,400	£ 1,209	

To find out more about the recommended measures and other actions you could take today to save money, visit [www.direct.gov.uk/savingenergy](http://www.direct.gov.uk/savingenergy) or call **0300 123 1234** (standard national rate). The Green Deal may allow you to make your home warmer and cheaper to run at no up-front cost.

### Summary of this home's energy performance related features

Element	Description	Energy Efficiency
Walls	Cavity wall, as built, insulated (assumed)	★★★★☆
Roof	Pitched, insulated (assumed) Roof room(s), insulated (assumed)	★★★★☆ ★★★★☆
Floor	(another dwelling below)	—
Windows	Fully double glazed	★★★★☆
Main heating	Room heaters, electric	★☆☆☆☆
Main heating controls	Programmer and appliance thermostats	★★★★☆
Secondary heating	None	—
Hot water	Electric immersion, standard tariff	★☆☆☆☆
Lighting	No low energy lighting	★☆☆☆☆

Current primary energy use per square metre of floor area: 246 kWh/m<sup>2</sup> per year

The assessment does not take into consideration the physical condition of any element. 'Assumed' means that the insulation could not be inspected and an assumption has been made in the methodology based on age and type of construction.

See addendum on the last page relating to items in the table above.

### Low and zero carbon energy sources

Low and zero carbon energy sources are sources of energy that release either very little or no carbon dioxide into the atmosphere when they are used. Installing these sources may help reduce energy bills as well as cutting carbon. There are none provided for this home.

### Opportunity to benefit from a Green Deal on this property

The Green Deal may enable owners and occupiers to make improvements to their property to make it more energy efficient. Under a Green Deal, the cost of the improvements is repaid over time via a credit agreement. Repayments are made through a charge added to the electricity bill for the property. To see which improvements are recommended for this property, please turn to page 3. You can choose which improvements you want to install and ask for a quote from an authorised Green Deal provider. They will organise installation by an authorised Green Deal installer. If you move home, the responsibility for paying the Green Deal charge under the credit agreement passes to the new electricity bill payer.

For householders in receipt of income-related benefits, additional help may be available.

To find out more, visit [www.direct.gov.uk/savingenergy](http://www.direct.gov.uk/savingenergy) or call 0300 123 1234.

## Recommendations

The measures below will improve the energy performance of your dwelling. The performance ratings after improvements listed below are cumulative; that is, they assume the improvements have been installed in the order that they appear in the table. Further information about the recommended measures and other simple actions you could take today to save money is available at [www.direct.gov.uk/savingenergy](http://www.direct.gov.uk/savingenergy). Before installing measures, you should make sure you have secured the appropriate permissions, where necessary. Such permissions might include permission from your landlord (if you are a tenant) or approval under Building Regulations for certain types of work.

Measures with a green tick  are likely to be fully financed through the Green Deal since the cost of the measures should be covered by the energy they save. Additional support may be available for homes where solid wall insulation is recommended. If you want to take up measures with an orange tick , be aware you may need to contribute some payment up-front.

Recommended measures	Indicative cost	Typical savings per year	Rating after improvement	Green Deal finance
Low energy lighting for all fixed outlets	£40	£ 33		
High heat retention storage heaters and dual immersion cylinder	£1,600 - £2,400	£ 403		

## Alternative measures

There are alternative measures below which you could also consider for your home.

- Biomass boiler (Exempted Appliance if in Smoke Control Area)
- Air or ground source heat pump

## Choosing the right package

Visit [www.epcadviser.direct.gov.uk](http://www.epcadviser.direct.gov.uk), our online tool which uses information from this EPC to show you how to save money on your fuel bills. You can use this tool to personalise your Green Deal package.

**Directgov**  
 Public services all in one place

Green Deal package	Typical annual savings
High heat retention storage heaters	<b>Total savings of £385</b>
Electricity/gas/other fuel savings	£385 / £0 / £0

You could finance this package of measures under the Green Deal. It could **save you £385 a year** in energy costs, based on typical energy use. Some or all of this saving would be recouped through the charge on your bill.
