

Energy Performance Certificate

Westfield
Blean
CANTERBURY
Kent
CT2 9ER

Dwelling type: Mid-terrace house
Date of assessment: 22 October 2008
Date of certificate: 25 October 2008
Reference number:
Total floor area: 43 m²

This home's performance is rated in terms of the energy use per square metre of floor area, energy efficiency based on fuel costs and environmental impact based on carbon dioxide (CO₂) emissions.

The energy efficiency rating is a measure of the overall efficiency of a home. The higher the rating the more energy efficient the home is and the lower the fuel bills are likely to be.

The environmental impact rating is a measure of a home's impact on the environment in terms of carbon dioxide (CO₂) emissions. The higher the rating the less impact it has on the environment.

Estimated energy use, carbon dioxide (CO₂) emissions and fuel costs of this home

	Current	Potential
Energy use	415 kWh/m ² per year	387 kWh/m ² per year
Carbon dioxide emissions	2.7 tonnes per year	2.5 tonnes per year
Lighting	£21 per year	£21 per year
Heating	£202 per year	£193 per year
Hot water	£172 per year	£155 per year

Based on standardised assumptions about occupancy, heating patterns and geographical location, the above table provides an indication of how much it will cost to provide lighting, heating and hot water to this home. The fuel costs only take into account the cost of fuel and not any associated service, maintenance or safety inspection. This certificate has been provided for comparative purposes only and enables one home to be compared with another. Always check the date the certificate was issued, because fuel prices can increase over time and energy saving recommendations will evolve.

To see how this home can achieve its potential rating please see the recommended measures.

The address and energy rating of the dwelling in this EPC may be given to EST to provide information on financial help for improving its energy performance.
